

RECAP IQ DEVELOPMENT OPTIMIZER

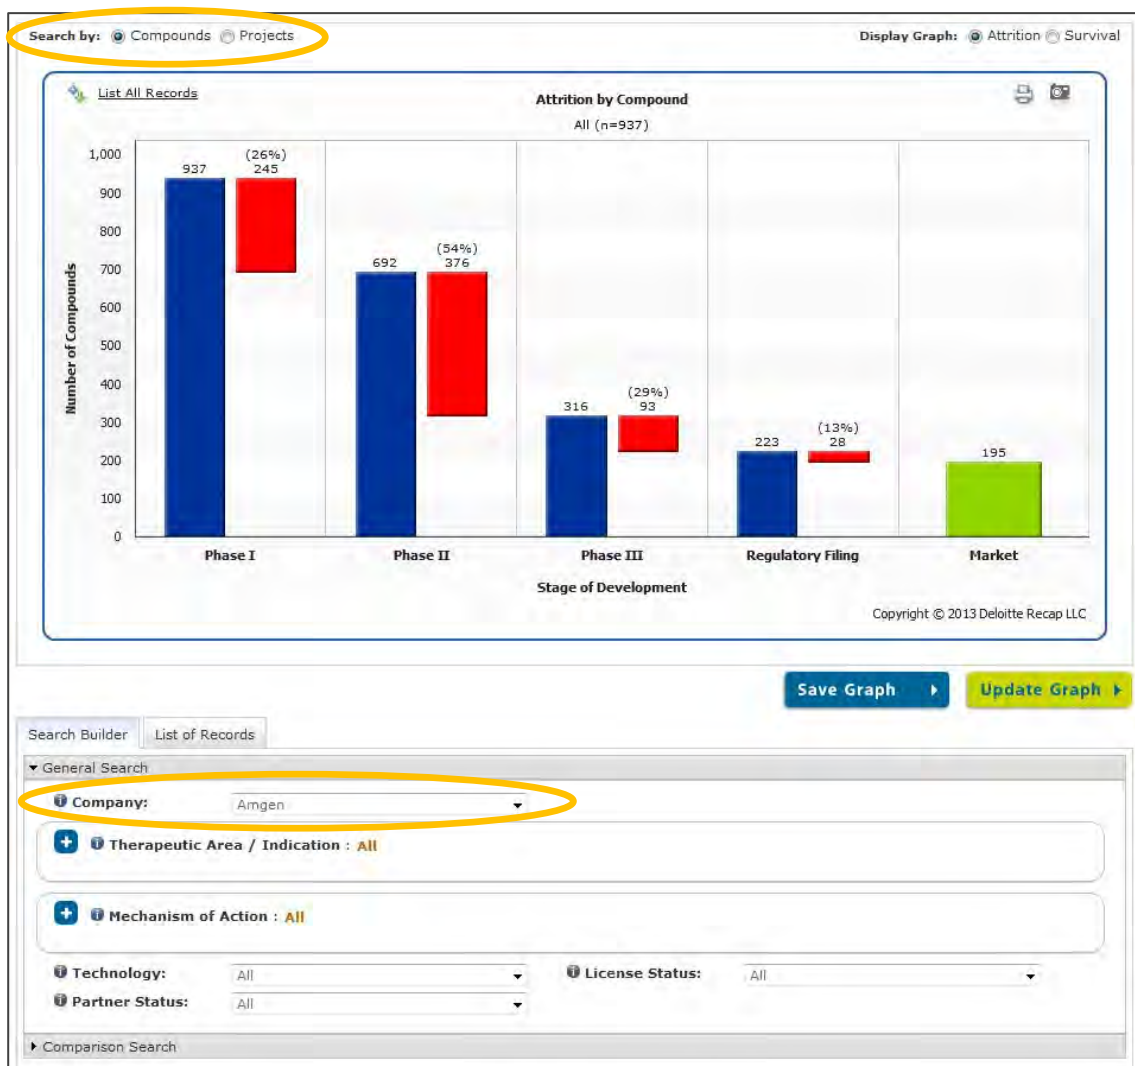

HOW CAN I FIND MY COMPANY'S OVERALL ATTRITION AND SURVIVAL OF COMPOUNDS AND COMPARE AGAINST COMPETITORS?

USE CASE

I want to examine compound attrition for my company and compare results with other companies that have better survival of compounds.

HOW TO CONSTRUCT

- Go to Graph > Attrition and construct your search:
 - Company: Use the drop down box to choose the company name
 - Search by: "Compounds"
- Then click "Update Graph".

RESULTS

- Select the compounds terminated at a particular phase from the attrition graph to show the various reasons for termination.
- Select the compounds at a particular phase from the graph to get the List of Projects behind the graph.
- Click on a particular project to get an overview of the project, Recap's Interactive Clinical Timeline that tracks a drug's progress, Company Clinical Summary, and the alliances, clinical trials, press releases, regulatory documents, abstracts, and sponsor documents associated with the project.
- To compare with another company, go back to the Search Builder, choose "Comparison Search", and enter the desired search criteria to compare two companies.
- Click "Save Graph" to save the graph and "Print List" to print the list of projects.
